PGDM (I I M Ahmadabad),  
Professional U S A
8. Mr. Shantanu Sharma  
PGDM (I I F T Delhi),  
Professional U S A

## From the Chief Patron Desk

It is rightly said:

***“Investment in knowledge pays the best interest.”***

At BPIT, we believe that ‘education’ is a wholesome, holistic exercise and as such we strive to give a whole new meaning to the word.

As a means of striving towards this goal of excellence, I feel proud to present the third issue of BODH: BPIT International Journal of Technology and Management.

It is a fact that education is a dynamic process in which new-fangled thoughts are supplemented persistently to construct the education in progressive approach. This journal is a sincere and dedicated effort of the learned faculty and management to disseminate the wealth of knowledge in the field of technology and management.

The journal would be helpful for the research scholars, scientists, professors and students to enhance their horizon of knowledge. This journal would provide a great opportunity to make them more influential, dynamic and innovative. All this could be possible with the hard work done by college staff under the guidance of visionary management.

I feel proud to acknowledge the contribution of highly qualified, dynamic and multi-talented faculty and the college management for working tirelessly to enrich the content of this journal.

***“Sharing knowledge is not about giving people something or getting something from them. Sharing knowledge occurs when people are genuinely interested in helping one another develop new capacities for action; it is about creating learning processes.”***

***–Peter Senge***

Happy Reading..

**(Sh. Atam Prakash Kaushik)**

## From the Editor-in-Chief Desk

In the words of **Oliver Wendell Holmes Jr.** –

*“A man's mind, stretched by new ideas, may never return to its original dimensions.”*

One such method of spreading the wings of knowledge is the publication and presentation of the worthy thoughts of those having a research aptitude. It gives me immense joy to announce the special issue of BODH: BPIT International Journal of Technology and Management, which includes research papers from National Conference on Business Practices and Innovations in Technology (NCBPIT 2019).

The function of education is to teach one to think intensively and to think critically. This journal is a tool for building knowledge and for facilitating learning. The journal is a good means of extending knowledge to the research scholars, professors, scientists and students regarding the current issues related to computers and management. The journal is an amalgam of the efforts of the highly dedicated faculty who have worked day in and day out for the successful launch of this special issue of BODH. I congratulate all for this sustained effort that has produced such outstanding results.

I extend my whole-hearted thanks to Honourable Chairman Sh. Atam Prakash Kaushik and the entire management of BPIT for their untiring support and worthy guidance.

**(Prof. Payal Pahwa)**

**Principal**
